

# Districtr

## for communities

Join the MGGG Redistricting Lab in April, every **Monday & Wednesday at 7pm Eastern** to learn how to collect community input with Districtr.

### **Monday Sessions: The WHY**

These one-hour trainings will cover Communities of Interest (COIs) and their role in redistricting, the basic Districtr tools, and our tips for collecting COI input.

### **Wednesday Workshops: The HOW**

These sessions are for hands-on map-drawing. Come once to be interviewed by our trainers and make a community map of your own. Come again to hone your skills as an interviewer! After one Monday and 1-2 Wednesdays, you're trained up and ready to map.
